

They're counting on our return.

Can we count on you?

PLEASE HELP

Partners for Rural Health is a Maine-based non-profit organization that has been educating students while changing lives for the better in the Dominican Republic since 1995. Twice a year, our students and volunteers travel to the DR to provide primary care, treat chronic illnesses, distribute medications and first aid supplies, and offer health education to over 1,500 patients in 20 rural villages. We help educate Dominican community leaders to care for the people in their villages, ensuring continuity of care for our patients for generations to come.

In order to continue, we need your help.

THE VALUE OF SERVICE LEARNING

Our students and volunteers gain valuable professional experience by engaging with patients in rural clinical settings with the guidance of our volunteer medical team. The opportunity to absorb a different culture and immerse in a global community health program often leads to higher levels of confidence and a broader perspective when serving local communities in Maine, across the United States, and abroad.

THE IMPACT OF YOUR DONATION

Your tax-deductible contribution will go towards medical supplies, equipment and transportation, and sustaining our programs. With your support we can continue to make a substantial difference in the long-term health of our patients.

Thousands of children, women, and men are counting on our return. *Our return depends on you.*
